## About the book

*The Professional Protection Officer*, the successor to the *Protection Officer Training Manual*, is the definitive study guide and instructional text for first-line security officers in both the private and public sectors. The material included in this new edition covers all of the subjects essential to training of protection officers, and has been the official manual for the International Foundation for Protection Officers since 1988. This revision contains 12 units, broken into over 40 chapters written by today's leading security instructors and educators. Retaining the high quality of previous editions' content, this new book adds critical updates and fresh pedagogy, as well as new diagrams, illustrations, and self quizzes, all tailored to the development of today's protection professionals. *The Professional Protection Officer* offers the most exciting and progressive approach yet!

## Key Features:

- Offers students and instructors all new learning aids, designed to reflect the most current information and to support and reinforce professional development
- Contains an Emerging Trends feature for each chapter, laying the groundwork for the future growth of this important profession
- Written by a cross-disciplinary contributor team consisting of top experts in their respective fields
